S.no	Success Story of Sh Kamal, Village Patta Mor, Distt Solan			
	Phone number-9857229849			
1	Project	Theme	Innovations in dairy farming	
	Identification			
2	Category	Animal Husbandry (Value addition)		
2	Situation and	Livestock based agricultural activities have always been		
	background	viewed as a lifeline for farmers. Since time immemorial, farmers in		
	(Importance	India have been sweating hard	to continue the age old practice of	
	and	dairy farming. It is not only because of its obvious remuneratinature but also because farmers are inclined towards it traditionally		
	Objectives)			
		Sh Kamal of Village Patta Mor was one such farmer who		
		had an avid interest in dairy farming because of the fervent		
		involvement of his ancestors in this enterprise.		
		Sh Kamal had a v	rision to make this enterprise more	
		economically viable for him. He er	thusiastically adopted the practice	
		of scientific breeding and reared milch animals of highest order.		
		However, he always felt the need to strive more as the traditional practices which he was employed to rear these high		
		yielding animals were not yielding h	nim as much as profit as possible.	
3	Major project	Sh Kamal was very well aware of the fact that fi		
	/Programme	accomplishment can be acl	nieved only if we keep on unifying	
	activities (Total	traditional practices with modern to	echnologies.	
	funds	He constantly used to s	tay in touch with the employees of	
	involved/	Animal Husbandry and avidly atten	ded all sorts of extension activities	
	expenditure	organized by them.		
	incurred can	Through one of the ex	tension lectures, he came to know	
	also be given)	about the advantages of chaff of	cutting. He comprehended the fact	
		that most of his dry fodder gets	wasted because it wasn't palatable	
		enough for his dairy animals. Mor	eover most of his labor investment	

		anticipates to support other dairy farmers to achieve the same.		
		stone unturned to make his dairy venture a lucrative one and		
		become an advocate of the improved technologies. He is leaving no		
	-	animal husbandry practices from the officials of department. He has		
	/Programme	imbibe scientific concepts and always makes an effort to learn novel		
	project	village who imbibed the same practices as him. He is always keen to		
5	Outcome of	Sh Kamal has become an inspiration for youth in his		
		way so that desired profits can be achieved.		
		He comprehends that its very essential to run a dairy in a methodical		
		earning profits from his venture. He is now content with his efforts.		
		He traded his produce in the local market and thus start		
		feeding the chaffed fodder, the milk production shot up to 110 liters.		
		animals yielded a total of 80 liters of milk/ day. However, after		
		The milk yield also improved. Earlier his 10 milc		
		and there was reduction in the wastage of fodder, as well.		
	also be given	his resources to the maximum. The end result was more digestible		
	incurred can	cows. He experimented and mixed up different ingredients to utilize		
	expenditure	It was very apparent that fodder was more edible to th		
	involved/	processed with much greater accuracy.		
	funds	only saving his labor, time & energy but the fodder was getting		
7	involved (Total	changes in his dairy enterprise. He perceived that chaff cutter was not		
4	Economics	Sh Kamal soon started to observe the remarkable		
		to see remarkable results.		
		soon, he was provided with one and Sh Kamal started utilizing it only		
		subsidized chaff cutter being distributed by AH department. Very		
		Comprehending this fact, he immediately applied for		
		felt that a chaff cutter will reduce their work load and enable to get them to earn a better profit.		
		days a month only for cutting grass which was a cumbersome task. He		
		was put in in chaff cutting. And his wife worked for more than ten		

Sh Kamal and his wife utilizing the motorized chaff cutter to chaff fodder for their animals
