Sample coding should be done as follows - State Code/ District code/ Bird code / Sample name code / Sample no. code (For example - PB/JAL/F/Cl/1). Sample no. code should be continuous throughout the year category wise. Same code should also be written on each sample vial.

Samples will not be received at RDDL if Important guidelines (as per annexure II) for dispatch of cloacal, tracheal, environmental & Serum samples for Avian Influenza surveillance are not followed while collecting and sending the samples to RDDL Jalandhar.

For any clarification contact Dr. Mukesh Mittal (Cell no. 9988231317)
